PART 944—REGULATIONS APPLICABLE TO  
THE OPERATION OF THE PRIORITIES SYSTEM  
[Priorities Reg. 32, Direction 6 as Amended  
Dec. 20, 1945]

#### ADJUSTMENT OF ORDERS, RECEIPTS AND DE- LIVERIES IN CASE OF WORK STOPPAGES

The following amended direction is issued pursuant to PR 32:

(a) *What this direction does.* As a result of work stoppages in manufacturers' plants, strict application of CPA inventory restrictions might have an adverse effect on the production and distribution of critical materials. This direction permits continued receipts during the first thirty days, but requires complete adjustment of outstanding orders by that time. It is designed to prevent the unnecessary accumulation of critical materials on the one hand, and on the other to encourage maximum production.

The receipts permitted by this direction are in addition to those permitted under the inventory limits of Priorities Regulation 32 or any other applicable order or regulation, unless it specifically states to the contrary.

(b) *Permitted receipts after suspension of operations.* (1) A person whose operations are suspended due to a work stoppage in his own plant may continue to receive materials for a period not exceeding thirty days immediately following the suspension based on his rate of operation as scheduled immediately before that time. By the 30th day, however, his outstanding orders must have been adjusted, and if necessary postponed or cancelled, as required by paragraph (e) of Priorities Regulation 32, and he may thereafter

continue to accept further deliveries only to the extent permitted by paragraph (h) of Priorities Regulation 32. In the case of work stoppages occurring before December 6, 1945, the above 30 day limit is extended to not later than January 5, 1946, and all outstanding orders must have been adjusted by that time. Suppliers of the customer may continue to produce, and to ship or hold as arranged with the customer, only in accordance with the above.

(2) This paragraph (b) does not apply with respect to any part of the customer's operations which is not suspended or which resumes operations, and materials may be produced and delivered by the supplier and received by the customer under these circumstances as permitted by Priorities Regulation 32. This paragraph (b) also does not apply to tires and tubes for original equipment which remain subject to Order R-1.

(c) *Resumption of operations.* As soon as operations are resumed, the customer must promptly adjust, and if necessary postpone or cancel, all his outstanding orders to the extent required by paragraph (e) of Priorities Regulation 32, and all deliveries and receipts are again subject to all provisions of that regulation.

Issued this 20th day of December 1945.

**AUTHORITY:** §§ 1370.1 to 1370.14, inclusive, issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong., Pub. Law 103, 79th Cong., E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681; E.O. 9599, 10 F.R. 10155; E.O. 9651, 10 F.R. 13487.

**ARTICLE I—SCOPE OF THIS AMENDMENT**

**SECTION 1. Articles covered.** This regulation covers sales of new household vacuum cleaners and the sets of attachments and any other article listed in section 25, Appendix A of the regulation.

**SEC. 2. Persons and transactions covered.** This regulation covers all sales and deliveries by any person of new household vacuum cleaners and sets of attachments and of any other articles listed in section 25, Appendix A.

**SEC. 3. Definitions.** As used in this regulation:

(a) "Vacuum cleaner" means a new household vacuum cleaner of the type commonly used in the home.

(b) "Manufacturer" means any person operating a plant or factory which manufactures or assembles vacuum cleaners, or a person who regularly sells vacuum cleaners to distributors, and includes all subsidiaries affiliated, branches, or other companies or enterprises under common ownership or control with such person.

(c) "Distributor" means any person who is not a "manufacturer" and who in the course of trade or business buys completed vacuum cleaners for resale to persons other than consumers.

(d) "Dealer" means a person who buys completed vacuum cleaners and resells them to consumers.

(e) "Consumer" means any person, other than an agency of the United States, purchasing for use rather than resale.

(f) "Person" includes an individual, corporation, or any other organized group, their legal successors or representatives.

(g) "Private brand" means any article covered by this revised regulation not offered for sale as a manufacturer's regular brand, but manufactured for a particular person or persons, whether or not such person's name or brand name appears thereon.

(h) "Model" means any article covered by this revised regulation which has the same specifications as those of a particular machine or attachments for which a ceiling price has been established.

(i) "Private brand seller" means any person other than a manufacturer who sells articles covered by this regulation under his own trade mark or brand name, and includes all subsidiaries, affiliates, branches or other companies or enterprises under common ownership or control with such person.

(j) "Attachment" means any supplementary device which the manufacturer regularly supplies with his vacuum

cleaners and which may be combined with the cleaner to increase the number of its functions.

(k) "Class of purchaser" means any purchaser or group of purchasers to whom the seller had an established practice during the period October 1-15, 1941 of selling the same type of article at prices different from those charged other purchasers, or groups of purchasers. A class of purchaser may be a single purchaser or a kind of purchaser (for example, an exclusive distributor, mail order establishments, department stores, a private brand seller, etc.) or purchasers located in a particular area (for example, a distributor in the New England States, etc.) or purchasers who buy in particular quantities (for example, dealers who buy in quantities of 5 or more) or purchasers who buy under particular conditions of sale (for example 2% cash discount for payment within 10 days, net 30 days, long term credit, sales on a delivered basis, etc.).

Any purchaser, kind of purchaser or purchaser on certain terms or conditions of sale which the industry has generally recognized as constituting a separate class of purchaser, and for sales to which the seller does not have a ceiling price established by or under this regulation is a new class of purchaser for that seller. A manufacturer's ceiling prices for sales to a new class of purchaser must be established under section 10 of this regulation.

**ARTICLE II—MANUFACTURERS' CEILING PRICES**

**SEC. 4. Models for which ceiling prices were established under Maximum Price Regulation No. 111—(a) Models which were sold or contracted to be sold between October 1, 1941 and March 30, 1942.** A manufacturer's ceiling price for sales to a particular class of purchaser other than consumers of any vacuum cleaner or other article covered by this revised regulation which he sold or contracted to sell between October 1, 1941 and March 30, 1942 is the price determined under the first applicable rule of the following contained in this section.

**Rule 1.** If the manufacturer sold or contracted to sell the particular model to a particular class of purchaser during the period October 1-15, 1941 inclusive, then his ceiling price for sales of that model to that class of purchaser is the highest net price, at which he made or contracted to make such a sale during that period.

**Rule 2.** If a manufacturer cannot use Rule 1 then his ceiling price for sales of a particular model to a particular class of purchaser is the highest net price, at which he sold or contracted to sell that model to a purchaser of the same class during the period October 16, 1941 to March 30, 1942.

**Rule 3.** If the manufacturer cannot find his ceiling price under Rules 1 or 2 for a sale of a particular model to a particular class of purchaser, because he did not sell or contract to sell that model to that class of purchaser during the period October 1, 1941 to March 30, 1942, inclusive, then his ceiling price for that sale is his ceiling price to any other class of purchaser to whom he sold or contracted to sell the model during that period, adjusted to reflect his customary differential then in effect for sales of the most comparable model to that particular class of purchaser.

(b) *Ceiling prices for sales by manufacturers of articles on which the ceiling price has been fixed by special authoriza-*

tion. Regardless of section 4 (a), if a price has been fixed before the issuance of this revised regulation, by Maximum Price Regulation No. 111 or by an order under that regulation or by other written approval from the Office of Price Administration for the sale by a manufacturer to any person other than a consumer or an agency of the United States of a particular model, then the ceiling price under this section for that model is the price fixed in the regulation, or by the order or other written approval.

**SEC. 5. Reconversion adjustment of certain ceiling prices.** This section authorizes reconversion adjustments by manufacturers of certain ceiling prices. Unless a manufacturer is otherwise directed by an order issued by the Office of Price Administration under this section, every manufacturer of any articles covered by this revised regulation may adjust any ceiling price which he fixed for sales to purchasers for resale and to the United States and Allied Governments in accordance with section 4 of this regulation, by adding to that price an amount equal to 6% of that price. Orders will be issued under this section denying a manufacturer permission to adjust his ceiling prices by all or part of this increase when it appears to the Price Administrator and from other information available to the Office of Price Administration, that the manufacturer has discontinued production of his low-end model or has decreased the proportion of low priced to high priced models which he manufactures so that his present or prospective production is not representative of his production in that respect of those machines during the year July 1, 1940 to June 30, 1941. The average price at which the manufacturer's production of each type of cleaner will be sold will be considered in determining how much, if any, of the increase will be granted to such a manufacturer.

**SEC. 6. New or changed models involving minor changes.** (a) A manufacturer's ceiling prices for any model covered by this revised regulation which does not differ by more than a "minor change" from another model for which he has established ceiling prices are the ceiling prices of the model already priced. Any change which reduces the quality, efficiency, convenience, or safety of operation in the home of the model being changed is not a "minor change."

(b) For the purpose of this regulation only the following changes are minor changes:

(1) Changes in color, trim, or hardware.  
(2) Changes in, but not elimination of, any part, including the following: The light, the off-and-on switch, the adjustment devices, the bristle brush, the bearings on the revolving brush, the bumper, and the caster wheels: *Provided*, That such changes shall not substantially alter the power plant, housing, nozzle, dirt container or bag, connecting cord, bearings on the motor, or cleaning attachments.

(c) A manufacturer who makes a minor change in any model of any article covered by this revised regulation shall keep available for inspection by the Office of Price Administration for so

long as the Emergency Price Control Act of 1942, as amended, remains in effect, a record of every such minor change, showing the model designation of the model being changed and a description of the minor changes being made.

**SEC. 7. New or changed models involving a change, not a minor change.**—(a) *Pricing formula.* A manufacturer who cannot find his ceiling price for a new or changed model under sections 4, 5 or 6 or under any order issued under this revised regulation, but who has a ceiling price established for a comparable model, shall determine his ceiling price for the new or changed model according to the following formula:

(1) He shall find the model being priced. The "comparable" model is one which is most like the article being priced in design, construction, and operation, which is closest to it in unit direct cost, and which is distributed through similar trade channels. An article, the ceiling price of which has been fixed under section 6, may not be used as the model in pricing a new or changed model.

(2) He shall find the current unit direct cost of the comparable model. Current unit direct cost means the cost of direct materials and direct labor computed on the basis of (i) his normal production volume and his normal material purchase practices; (ii) current material prices paid not to exceed ceiling prices; (iii) wage rates in effect at the time the report is prepared; (iv) labor efficiency and material waste allowances determined at the time of, or just prior to the preparation of the report. For the purpose of this section, direct material and direct labor do not include any items of factory expense or burden, pattern and tool and die costs, production engineering, warehousing and shipping expense, royalties, items of selling, general and administrative expense. If he is not producing the comparable model, he must, nevertheless, compute the current unit direct cost on the basis described above.

(3) He shall find the unit direct cost of the model being priced on the same basis as described in subparagraph (2) in a manner consistent with the computation of the current unit direct cost of the comparable model.

(4) He shall find his markup factor by dividing the ceiling price of the comparable model by its unit direct cost. He must use his ceiling price to the class of purchaser (distributors, dealers, mail order houses, etc.) which buys from him in the greatest volume.

(5) He shall multiply the unit direct cost of the model being priced by that markup factor to the class of purchaser used in subparagraph (4). His ceiling prices to any other class of purchaser for the model being priced must be calculated on the basis of the percentage differential which he had in effect during the period October 1-15, 1941 for sales of the comparable model to that class of purchaser.

(b) *Reporting and waiting provisions.*

(1) If a manufacturer uses this section to find his ceiling price, he may not without special authorization sell, offer to sell, or deliver the article until his ceiling price has been approved by the Office of Price Administration. To receive

that approval a manufacturer must comply with the reporting and waiting provisions which are stated below.

(2) The manufacturer must report the price which he has arrived at under this section on OPA Form 6067-2663 provided for that purpose giving all the information called for by that form, or if he cannot do so, an explanation of the reasons he cannot. These forms may be obtained by him from the Office of Price Administration, Washington 25, D. C., and his report must be filed there. With the form he must include an illustration and specifications of both the new and comparable models. If he receives a written acknowledgment and approval of his report, he may proceed at once to sell the article at the reported price. Fifteen days after mailing the report (or all additional information which may have been requested), in the absence of a contrary direction from the Office of Price Administration, he may treat his reported price as his ceiling price. *Provided* (a) he has reported the correct ceiling price of the comparable article used in the computation and (b) he has used reasonable care and good faith in selecting and reporting the comparable article used as his computation and (c) he has used reasonable care and good faith in arriving at and reporting all unit direct costs as provided in this revised regulation. If the manufacturer has not met all three of these conditions, a sale at the reported price, if it is higher than the correctly determined price, is in violation of this revised regulation, even though the manufacturer did not hear from the Office of Price Administration within fifteen days or even though his reported price was approved.

The manufacturer may not, however, unless he is specifically authorized to do so, deliver any article priced under this section until he has ascertained the retail ceiling prices for the article and has complied with the tagging requirements of section 17.

**SEC. 8. Adjustment of certain prices established or reported.** Prices established or reported under section 4, 5, 6 or 7 are subject to change at any time by written order of the Office of Price Administration if (1) the price appears to be out of line with prices established for similar models taking into account the manufacturer's relationships with other manufacturers during the base period, or (2) the price is too high or too low in comparison with the manufacturing or selling conditions actually experienced, or (3) the price is found to be incorrect under the provisions of the applicable pricing method. Any change under this section will not be retroactive.

**SEC. 9. Ceiling prices fixed by special order.** If a manufacturer cannot apply the formula in section 7 because he has no comparable model, then his ceiling price for sales to a particular class of purchaser is the price specifically authorized by the Office of Price Administration for such sale in line with the level of ceiling prices fixed by this regulation. Applications for the establishment of such prices must be made in writing to the Office of Price Administration, Washington 25, D. C. The manufacturer may not, except in the case of sales to the

U. S. (see section 13 below), sell, offer to sell, or deliver an article covered by this revised regulation for which a ceiling price must be fixed under this section prior to specific written authorization by the Office of Price Administration.

Applications under this section shall contain a detailed breakdown of the unit direct costs of the new model (computed in the manner set forth in section 7 (a) (2)), a list of the major specifications of that model, a photograph or other illustrations of that model, and the manufacturer's proposed ceiling prices for sales to each class of purchaser.

**SEC. 10. Ceiling prices for sales to new classes of purchasers.** If a manufacturer cannot find his ceiling price for sales to a particular class of purchaser under any of the preceding sections of this regulation, or under any order issued under this regulation, he shall apply for the establishment of ceiling prices or a method of determining his ceiling prices for sales to that class of purchaser. The application shall be made by letter to the Office of Price Administration, Washington 25, D. C., and shall indicate the classes of purchasers for sales to whom prices are to be fixed. The manufacturer may not, except in the case of sales to the United States (see section 13 below), sell, offer to sell, or deliver an article covered by this revised regulation for which a ceiling price must be fixed under this section prior to specific written authorization by the Office of Price Administration. In addition, the application shall set forth the manufacturer's proposed ceiling prices for those sales. An order will be issued under this section establishing ceiling prices or a method of determining ceiling prices in line with the level of ceiling prices fixed by this regulation.

**SEC. 11. Establishment of ceiling prices in certain cases.** If a manufacturer is required by this regulation to file a report under section 7 or to apply for the establishment of a ceiling price under section 9 or 10, and he fails to do so, or he fails to provide any of the information required in these sections, the Office of Price Administration may, on its own motion, issue orders under this section fixing ceiling prices for the manufacturer's sales in line with the level of ceiling prices established by this regulation. Ceiling prices so established will be effective as of the date of the first sale.

**SEC. 12. Reports, catalogs and price lists.** (a) Every manufacturer of articles covered by this revised regulation must notify the Office of Price Administration when he changes the model designation of any such article in his line, and whenever he adds a new model to his line. This report may be made by letter and must give the model description of both the model changed and the new model. This report must be mailed within three days after the change or addition is made.

(b) Every manufacturer must file with the Office of Price Administration, Washington 25, D. C., a copy of every catalog and price list for articles covered by this revised regulation issued by him or in effect on or after March 30, 1942.

In addition, every manufacturer must file a copy of every notification he issues to the trade after the effective date of this regulation concerning new prices, changes in prices, or changes in terms, discounts or allowances.

**SEC. 13. Sales to the United States.** A manufacturer who does not have a ceiling price established for sales of a particular model to the United States Government may sell and deliver, and tentatively collect a price for any model which is sold to him directly to any agency of the United States Government prior to the establishment of a ceiling price for sales by the manufacturer to that class of purchaser. The manufacturer must, however, inform the buyer that the ceiling price is still to be established under this regulation, and he must refund any amount collected which is in excess of the ceiling price approved or established by the Office of Price Administration. Within ten days after the manufacturer has entered into a contract for such a sale, he must file a report or an application as provided in sections 7, 9, or 10, whichever is applicable.

#### ARTICLE III—CEILING PRICES FOR REALES BY DISTRIBUTORS AND DEALERS

**SEC. 14. Establishment of resale prices by order—(a) Distributors.** Whenever the manufacturer's ceiling prices for an article covered by this revised regulation have been determined under the regulation, an order may be issued fixing ceiling prices, or a method of determining ceiling prices for sales of the article by distributors. Distributors' ceiling prices established by an order under this section supersede any ceiling prices established under any other provision of this revised regulation for those sales.

(b) *Adjustment of certain ceiling prices.* Ceiling prices established by any order under this section or under sections 15 or 25 of this revised regulation are subject to change at any time by written order of the Office of Price Administration if (1) the price appears to be out of line with prices established for similar models taking into account customary price relationships during the base period, or (2) the price is too high or too low in comparison with the selling conditions actually experienced, or (3) the price is found to be incorrect under the provisions of the applicable pricing method. Any change under this section will not be retroactive.

**SEC. 15. Distributors' ceiling prices.** Unless the distributor's ceiling price for sales of a particular model to a particular class of purchaser has been established by an order issued under section 14, he shall determine his ceiling price under the first applicable rule of the following:

**Rule 1.** If the distributor had a ceiling price established under Maximum Price Regulation No. 111 before the issuance of this revised regulation for sales of the identical model (or a model differing from it by minor changes only and priced under section 6) to the same class of purchaser at any time between March 23, 1942 and December 21, 1945 inclusive, he finds his ceiling price under this revised regulation for such a sale as follows:

(a) He first ascertains his ceiling price fixed for that sale by Maximum Price Regulation No. 111.

(b) He then multiplies that figure by 1.034.

(c) The result is his ceiling price for that sale under this regulation.

**Rule 2.** If the distributor had a ceiling price established under Maximum Price Regulation No. 111 before the issuance of this revised regulation for sales of the identical model (or a model differing from it by minor changes only and priced under section 6) between March 23, 1942 and December 21, 1945 inclusive, but cannot use Rule 1 because he did not have an established ceiling price for sales of that model to that particular class of purchaser, then his ceiling price for that sale is his ceiling price to any other class of purchaser as determined under Rule 1 adjusted to reflect his differential in effect during the period October 1-15, 1941, on sales to that particular class of purchaser.

**Rule 3.** If a distributor cannot use Rules 1 or 2, his ceiling price for a sale of a particular model to a particular class of purchaser is the ceiling price established under Rules 1 or 2 for such a sale by his "closest seller of the same class." A distributor's "closest seller of the same class" is a distributor who (a) is selling the identical model to the same class of purchaser, and (b) is located nearest to the seller.

**Rule 4.** If a distributor cannot otherwise find his ceiling price for a particular sale, his ceiling price for that sale is the price established by the Office of Price Administration by an order under this section. An application under this rule shall state the name of the manufacturer of the article being priced, its model designation, the classes of purchasers to whom the applicant proposes to sell the cleaner, the ceiling prices he proposes for such sales, and a statement of the reasons why he cannot use the other rules in this section to fix his ceiling prices. Until ceiling prices are fixed for his sales by an order under this section a distributor whose ceiling prices must be fixed under this rule may not make sales or deliveries of any model covered by his application.

**SEC. 16. Ceiling prices for sales to consumers—(a) Prices set forth in section 25, Appendix A.** The ceiling prices for sales of a particular model by any person to consumer is the price listed in section 25, Appendix A.

(b) *Private brand sellers of models previously priced.* On or after January 21, 1946, unless this regulation or an order issued under this section specifies otherwise, the ceiling price for sales to consumers by private brand sellers of a model which differs by no more than a "minor change" as defined in section 6 from a model listed in section 25, Appendix A is the same as the ceiling price listed for that model in that section regardless of the model designation of the article being sold by the private brand seller. The ceiling price for sales by private brand sellers of such articles during the period December 21, 1945 to January 21, 1946, shall be the ceiling price specified for such sales before the issuance of this revised regulation, by Maximum Price Regulation No. 111, unless the article has a tag or label showing the OPA retail ceiling price under this revised regulation affixed by the manufacturer in accordance with section 18. If the article has such a tag or label, the retail ceiling price shall be the ceiling price established under this revised regulation and correctly shown on that tag or label.

(c) *Private brand sellers of other models.* The ceiling prices for sales to

consumers of any private brand model which cannot be priced under paragraph (b) shall be the ceiling price authorized by the Office of Price Administration by an order issued under this section for such sales in line with the level of retail ceiling prices established under this regulation.

An application for the establishment of a ceiling price of any model priced under this paragraph may be made by either the manufacturer of the model or the private brand seller selling the model. Applications under this paragraph shall contain the name of the manufacturer and private brand seller, the model designation of the model, a list of its major specifications, a photograph or other illustration of the model and the ceiling price proposed for sales of the model to consumers.

(d) *Credit charges.* (1) Any person selling articles covered by this revised regulation to consumers, who, during the period October 1-15, 1941, collected a separately stated additional charge for the extension of credit on sales of such articles, may collect a charge for the extension of credit under this regulation, not exceeding such charge during the period October 1-15, 1941 on a similar sale on similar terms to the same class of purchaser. Dealers who did not so state and collect an additional charge, may collect a charge for the extension of credit only on installment plan sales; and the charge shall not exceed the separately stated additional charge for the extension of credit on a similar sale on similar terms to the same class of purchaser during the period October 1-15, 1941, by the dealer's closest competitor who made a separately stated charge.

An installment-plan sale as used in the above paragraph means a sale where the unpaid balance is to be paid in installments over a period of either (i) six weeks or more from the date of sale in the case of weekly installments, or (ii) eight weeks or more in the case of other than weekly installments.

(2) All charges for the extension of credit shall be quoted and stated separately. Any charge which is not quoted and stated separately or which otherwise does not conform to this subsection, shall, for the purposes of this regulation, be considered to be part of the price charged for the vacuum cleaner sold.

(3) No dealer may require as a condition of sale that the consumer must buy on credit.

#### ARTICLE IV—GENERAL PROVISIONS

**SEC. 17. Sales invoices.** Every manufacturer, distributor, and dealer who sells an article covered by this revised regulation after December 21, 1945 shall furnish every purchaser with an invoice showing the date of sale, the name and addresses of both the buyer and seller, the model designation of each article sold, the price charged, the quantity of each model sold, the terms of sale, and the nature and amount of any additional charges. Every seller must keep a copy of every sales invoice available for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

**SEC. 18. Tagging.** (a) No person may sell at retail any article covered by this revised regulation unless there is attached to the article a tag or label containing the OPA retail ceiling price for sales of the article by the seller. On and after January 21, 1946 no person may sell at retail any article covered by this revised regulation unless there is attached to the article a tag or label provided by the manufacturer in accordance with paragraph (b) of this section.

(b) Unless an order under this regulation specifies otherwise, on or after January 9, 1946 no manufacturer may ship any machine covered by this revised regulation to a distributor or dealer unless there is securely attached to the machine a tag or label containing its OPA retail ceiling price, the brand name and model designation of the machine, a statement of the number of attachment pieces, if any, included in the price, and a statement that the label may not be removed until after the machine is delivered to the consumer.

If attachment sets are offered for sale separately, the manufacturer shall, prior to shipment of the set, to a distributor or dealer, attach to the attachment set a tag or label containing a statement of the number of attachment pieces included in the set, the OPA retail ceiling price of the set, and a statement that the tag or label may not be removed until after the attachment set is delivered to the consumer.

**SEC. 19. Terms of sale.** Unless this regulation or an order issued under it provides otherwise each ceiling price established by or under this regulation is subject to each seller's terms, allowances, discounts and price differentials no less favorable than those he had in effect for similar sales during the period October 1-15-41, or thereafter properly established under the applicable OPA regulations.

**SEC. 20. Relation of this regulation to other price regulations.** (a) All records which sellers were required to retain under Maximum Price Regulation No. 111 must be kept and made available by them for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(b) The ceiling price at which any article covered by this regulation may be exported by any person shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation.

**SEC. 21. Modification of provisions of this regulation.** The provisions of this regulation as applied to classes of commodities or persons subject thereto may be modified by orders of general applicability issued under this section.

**SEC. 22. Adjustable pricing.** A seller of any articles covered by this revised regulation may agree to sell at prices which can be increased up to his ceiling prices in effect at the time of delivery, but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjustable upward in accordance with action to be taken by the

Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable ceiling price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by an official of the Office of Price Administration having authority to act upon the pending request for a change in the price or to give the authorization. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

**SEC. 23. Compliance with the regulation—(a) No buying or selling at over ceiling prices.** Regardless of any contract or other obligation no person shall sell, offer to sell, or deliver, and in the course of trade or business, no person shall purchase or accept delivery of any article covered by this revised regulation at a price higher than the ceiling price fixed by this revised regulation, or before the manufacturer has properly determined his ceiling price under this revised regulation.

If, in violation of this provision, a sale, offer to sell, or delivery of any article covered by this revised regulation is made before its ceiling price has been properly established in accordance with this revised regulation, the ceiling price applicable to the sale, offer to sell or delivery, shall be the correct ceiling price for the article properly determined in accordance with this regulation.

(b) *Enforcement.* Persons violating any provisions of this revised regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

(c) *Licensing.* The provisions of Licensing Order No. 1 licensing all persons who make sales under price control are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(d) *Certain practices forbidden.* Any practice which has the effect of getting a higher-than-ceiling price without actually raising the dollar and cents price is hereby forbidden.

The following is an illustrative list of the things a seller is not permitted to do. A seller is not permitted to require the purchaser, as a condition of the sale or transfer of the article covered by this revised regulation, to make payment over a period of time; to require him to finance the purchase through any particular lending agency; to require him to purchase any additional attachments, equipment, accessories, repairs, parts, or services, so as to increase the total amount paid by the purchaser in connection with the sale to more than the ceiling price of the article; to require him

to purchase any other commodity or service; or to require him to make payment in whole or in part by exchanging, transferring or trading in any other product or commodity. Where there is an exchange, transfer, or trade-in in connection with a sale, it is a violation for the seller to give the purchaser an allowance for the product or commodity exchanged, transferred, or traded in which is less than the price on the schedule previously filed by the manufacturer with the Office of Price Administration of trade-in-allowances granted in connection with retail sales of his machines

during the period October 1-15, 1941. If the manufacturer did not file such a schedule, it is a violation for the seller to give the purchaser less than three quarters of the maximum wholesale "as is" price shown for the traded-in cleaner in Maximum Price Regulation No. 294.

Furthermore, the seller is prohibited from providing for the purchase of an article covered by this revised regulation by a lessee under a rental contract at an agreed valuation which together with the amount paid for the rental is higher than the applicable ceiling price at the time the rental contract is entered into, and

from making the terms and conditions of sale more generous to purchasers than they customarily have been except to the extent allowed by this regulation.

SEC. 24. *Geographical applicability.* The provisions of this regulation shall be applicable to the 48 states and the District of Columbia.

SEC. 25. *Appendix A—Ceiling prices for sales to consumers.* The ceiling price for sales to consumers of the models of machines and attachments listed below are the applicable prices listed in this appendix.

#### PART 1305—ADMINISTRATION

[Gen. RO 11, Amdt. 24]

##### REPLACEMENT OF RATIONED FOODS USED IN PRODUCTS ACQUIRED BY DESIGNATED AGENCIES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

General Ration Order 11 is amended in the following respects:

1. A new section 2.5 is added to read as follows:

**SEC. 2.5 Termination of contracts.** (a) If an industrial user used sugar in manufacturing products for a designated agency pursuant to a contract or order which was terminated or cancelled and if such products were not acquired by the designated agency because of such termination or cancellation, he may apply to the District Office for a loan equal to the amount of sugar used by him in such products, or for an additional allotment equal to all or part of the sugar so used. Such application must be made, in writing, to the District Office and must state:

(1) The name and address of the industrial user;

(2) The nature and amount of the products which were to be acquired by a designated agency, and a copy of the contract or order covering such products;

(3) The date on which such contract or order was cancelled or terminated by the designated agency, and the name and address of the terminating office or depot;

(4) The amount of sugar used by him pursuant to the contract or order in products not acquired by the designated agency because of the termination of the contract or order. In addition, if he wishes to receive, in place of all or part of the loan to which he may be entitled, an additional allotment equal to all or part of the sugar so used, he must state:

(5) A description of the product or products made by him pursuant to the contract or order which he claims cannot be used by him in his regular operation, and which, for reasons other than the mere style or method of packaging, are not normally manufactured or marketed by anyone for civilian distribution;

(6) The reason why he claims such product or products are not normally manufactured or marketed by anyone for civilian distribution;

(7) The amount of sugar used in the products described in (5).

<sup>1</sup> 8 F.R. 9008.

(b) If the District Office finds that the applicant, pursuant to a contract or order which was terminated, used sugar in products which were not acquired by a designated agency, it shall issue a check to the user equal to the amount of sugar so used. The amount of the check shall be charged as excess inventory and must be repaid from succeeding allotments of the applicant in installments of 25% of each allotment until paid. If the District Office finds that all or part of such products cannot be used by the applicant in his regular operations, and that for reasons other than the mere style or method of packaging they are not normally manufactured or marketed by anyone for civilian distribution, it shall reduce the amount of the excess inventory charge to be made by the portion allocable to the sugar used in such products, and the amount of such reduction shall be regarded as the issuance to the applicant as an additional allotment. In either event, the allotment of the industrial user for the allotment period in which a check is received shall be considered increased by the amount of such check.

2. Section 3.5 is amended by adding thereto paragraph (c) and (d) to read as follows:

(c) If, at the date his contract or order is terminated or cancelled, such user has used all or part of the advance in accordance with the contract or order in products not acquired by the designated agency because of such termination or cancellation, he may apply for permission to repay such charge out of succeeding allotments in installments of 25% of each allotment instead of having the entire amount charged against his succeeding allotments until paid, or for cancellation of all or part of such excess inventory charge. The application must be made, in writing, to the District Office and must state:

(1) The name and address of the industrial user;

(2) The amount of sugar used by him from the advance pursuant to the contract or order in products not acquired by the designated agency because of the termination of the contract or order on or after September 17, 1945;

(3) The name and address of the office or depot of the designated agency which terminated the contract or order.

In addition, if he wishes to have all or part of the excess inventory charge cancelled, he must state:

(4) A description of the product or products made by him pursuant to the contract or order which he claims cannot be used by him in his regular operation and which, for reasons other than the mere style or method of packaging, are not normally manufactured or marketed by anyone for civilian distribution;

(5) The reason why he claims such product or products are not normally manufactured or marketed by anyone for civilian distribution;

(6) The amount of sugar used in the products described in (4).

(d) If the District Office finds that the applicant, pursuant to a contract or order which was terminated or cancelled on or after September 17, 1945, used all or part of an advance in products which were not

acquired by the designated agency because of such termination or cancellation, it shall permit the user to repay any remaining excess inventory charge allocable to the sugar used in such products from succeeding allotments, in installments of 25% of each allotment, until paid. If the District Office finds that all or part of such products cannot be used by the applicant in his regular operations, and that, for reasons other than the mere style or method of packaging, they are not normally manufactured or marketed by anyone for civilian distribution, it shall cancel the part of the excess inventory charge allocable to the sugar used in such products. In the latter case, if all or part of the excess inventory charge allocable to the sugar used in such products has already been repaid by the applicant, the District Office shall, in addition to cancelling the remaining portion of such charge, issue a check to the user for the part of the charge already paid. The allotment of the user for the allotment period in which such a check is received shall be considered increased by the amount of such check.

This amendment shall become effective December 26, 1945.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 26th day of December 1945.

TITLE 38—PENSIONS, BONUSES, AND  
VETERANS' RELIEF

## Chapter I—Veterans' Administration

## PART 25—MEDICAL

REIMBURSEMENT OR PAYMENT FOR EXPENSES  
OF UNAUTHORIZED MEDICAL SERVICES

§ 25.6140 *Adjudication in central office.* (a) Claims for reimbursement or payment of expenses of medical services obtained without prior authorization of the Veterans' Administration as herein-after comprehended, will be adjudicated in the office of the surgeon general, central office.

(b) Chief Medical officers of regional offices and centers, upon receiving such claims direct, or by reference from central office, will be required to develop them as hereinafter instructed (§ 25.6148), before forwarding them to central office. The beneficiaries' files, except in cases comprehended by § 25.6141 (e), will be forwarded with the claim.

(c) Upon receipt in central office, claims so referred will be reviewed and approved or disapproved by medical officers in the office of the director, outpatient service, clothed with delegated authority therefor, if the amount does

not exceed \$500. If the amount exceeds \$500, such medical officers will submit recommendations for approval to the assistant administrator for medical administration.

No change in (d).

§ 25.6141 *Classes of claims comprehended.* Claims for reimbursement of or payment for medical treatment (including the necessary travel incidental thereto) obtained without prior authorization from the Veterans Administration, except as provided in paragraphs (d) and (e) hereof, may be submitted and will be considered under the following conditions:

(a) The claim must be for treatment of a service-connected disease or injury only; or for the adjunct relief of an associated nonservice-connected condition determined as aggravating the disability from the basic service-connected disorder.

(b) As to unauthorized treatment rendered prior to March 20, 1933, the claims will be limited to cases falling within the final proviso of section 202 (9), World War Veterans' Act, 1924, as amended, viz., (1) The treatment must have been rendered in a medical emergency; (2) Government facilities must have been not feasibly available; (3) Delay would have been hazardous. All of these three elements must have existed, and if any one was lacking reimbursement or payment will not be authorized; (4) Claim must have been filed with the Veterans Administration prior to March 20, 1933, as required by Public No. 307, 74th Congress, Act of August 23, 1935.

(c) As to unauthorized treatment rendered subsequent to March 19, 1933, the eligibility criteria defined in paragraph (b) (1), (2), (3) will apply; and, in addition, it must be shown by a decision of an adjudicative agency that the disability from the disease or injury for which treatment had been rendered was service connected, or determined by the medical officers designated in a § 25.6140 (c) as aggravating such service-connected disability.

No change in (d).

(e) As to claims for reimbursement of or payment for repairs of prosthetic appliances used by beneficiaries for treatment of a service-connected disability, or a nonservice-connected disability determined as aggravating the basic service-connected disability and for repairs of prosthetic appliances used and required by beneficiaries to prevent interruption of the pursuit of a course of training authorized under Public No. 16, 78th Congress, the following eligibility criteria in lieu of those defined in paragraph (b) (1), (2), and (3) will apply:

(1) The repairs were secured from locally available sources.

(2) The cost of the repairs does not exceed \$25.00.

(3) There is a showing that the repairs were necessary and that it was more expedient to have such repairs made through private arrangements.

Reimbursement or payment as herein provided will be made in the amount claimed unless determined unreasonable, in which event only a reasonable amount for the service rendered will be paid. Reimbursement or payment will not be

made for expense incurred by a beneficiary for transportation.

§ 25.6145 *Statement to support claims—(a) Nursing service.* To support a claim for unauthorized medical service when a nurse had been employed, a statement will be required from the attending physician showing necessity for such nurse, and whether she was a registered graduate or a so-called "practical nurse." When, for any good reason, it is not practicable to procure such statements and in the judgment of the physician reviewing the claim as prescribed in § 25.6140 (c) the need for a nurse is sufficiently established, the latter may so certify. Payment for service of a "practical nurse" will be allowed only in the exceptional cases wherein a registered graduate nurse could not be engaged.

(b) *Room and board.* Where claim is made for an amount in excess of \$3 per diem for room and board, the excess will not be allowed unless there is submitted a statement from the attending physician or superintendent of the hospital concerned that the claimant's condition demanded the use of a private room, for which a fee not in excess of \$5 may be allowed. However, this provision will not prohibit approval of a fee exceeding \$5, in exceptional and meritorious cases. No change in (c) or (d).

§ 25.6148 *Cooperation of field stations.* (a) Guided by the controlling provisions of §§ 25.6140–25.6147, inclusive, chief medical officers of regional offices and centers will advise claimants whether they have or have not prima facie eligibility to reimbursement or payment of unauthorized medical expenses. If the claim is patently inadmissible (e. g., if made for treatment of a non-service-connected condition, etc.) the claimant will be so advised and the claim will not be forwarded to central office. But if the basic facts indicate prima facie eligibility, the chief medical officer will instruct the claimant as to all the supporting exhibits; and, after these have been checked as satisfactory they will be assembled and forwarded, with the Form 583, the case file as provided in § 25.6140 (b), and recommendation for payment (with comment, if desired), to central office.

(b) Upon request therefor by a field station, central office will send sufficient copies of Form 583, Claim for Cost of Unauthorized Medical Treatment. This form will be executed by each creditor who has rendered service for which payment has not been received; or by each person who has paid, from his personal funds, the cost of the unauthorized medical treatment. The claim must be supported by completely itemized bills or statements of account. When a claim is presented by a creditor, it is further required that a statement be supplied, signed by the patient or his representative, certifying to the amounts due and unpaid.

## FEDERAL POWER COMMISSION.

[Docket No. G-231]

NATURAL GAS PIPELINE CO. OF AMERICA  
AND TEXOMA NATURAL GAS CO.  
NOTICE OF AMENDED APPLICATION

DECEMBER 17, 1945.

Notice is hereby given that on December 3, 1945, an amendatory joint application was filed with the Federal Power Commission by Natural Gas Pipeline Company of America ("Natural") and Texoma Natural Gas Company ("Texoma"), each a Delaware corporation with its principal place of business at Chicago, Illinois, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicants jointly, but each in respect to the facilities proposed to be constructed by it, to construct and operate certain facilities hereinafter more particularly described, which if constructed will extend and enlarge Applicants' existing integrated natural-gas transportation system. Such transportation system, operated under common management, includes a 24-inch main pipeline extending approximately 900 miles from the Panhandle field in Texas in a general northeasterly direction across portions of Oklahoma, Kansas, Nebraska, Iowa and Illinois to a point near Joliet, Illinois; segments or "loops" of pipeline 26 inches in diameter which parallel the aforementioned 24-

inch pipeline in five sections for a total length of 425 miles; and a 20-inch lateral pipeline, known as the Wisconsin lateral line, extending from Geneseo, Illinois, northeasterly to the Wisconsin State line south of the city of Burlington, Wisconsin.

The facilities which Applicants request authorization to construct and operate are described as follows:

1. *As to Texoma.* (a) The addition of one new compressor engine of 1250 horsepower at its Compressor Station No. 22 increasing the total installed capacity at said station from 9,000 horsepower, which will be the horsepower after the station is enlarged by construction proposed by Applicant's application in Docket G-651,<sup>2</sup> to a total of 10,250 horsepower; and also additions to the facilities there located for removing water vapors and liquid hydrocarbons, to treat an additional 20,100 M. C. F. of gas per day.

(b) The construction of 10.63 miles of 26-inch pipeline, parallel to the existing 24-inch main line, from a point located 25.86 miles south of its northern terminus to the point of junction of the present 26-inch loop line with the original 24-inch line.

2. *As to Natural.* (a) The construction of a 5,000 horsepower compressor station at a convenient location adjacent to the town of Hugoton, Kansas; and also the installation at the same location of facilities for removing water vapor and liquid hydrocarbons adequate to treat 65,100 M.C.F. of gas per day.

(b) The addition of 1250 horsepower compressor units to the main line stations in accordance with the following tabulation which reveals the station number, number of 1250 horsepower units to be added, the presently installed horsepower, and the total horsepower after the contemplated installations.

Station No.	Number of 1,250 horsepower units to be added	Horsepower	
		Present	After proposed installation
2.....	1	7,500	7,500
3.....	1	7,500	8,750
4.....	2	6,250	8,750
5.....	2	6,250	8,750
6.....	2	6,250	8,750
7.....	2	6,250	8,750
8.....	2	6,250	8,750
9.....	1	7,500	8,750
10.....	1	6,250	7,500

(c) The construction of 10 miles of 24-inch line in the Hugoton field.

(d) The construction of 46.33 miles of 26-inch pipeline to connect the proposed Hugoton compressor station with the present main line system at a point near the Oklahoma-Kansas state line.

(e) The construction of certain 26-inch pipeline loops parallel to the present 24-inch pipeline where no 26-inch loops now exist or will not exist after the construction proposed by Applicant's application in Docket G-651, more particularly described as follows:

(1) A 26-inch loop line 6.48 miles in length beginning at the east header of

the Cimarron River crossing and ending at the point of junction of the present 26-inch loop line with the original 24-inch line.

(2) A 26-inch loop line 13.57 miles in length beginning at a point 34.70 miles east of Compressor Station No. 8 and ending at the west header of the Des Moines River crossing.

(3) A 26-inch loop line 13.72 miles in length beginning at a point on the 24-inch line near Crampton, Illinois, and ending at Compressor Station No. 10.

(f) The construction of 1.55 miles of 20-inch pipeline parallel to the present 20-inch pipeline across the Cimarron River.

(g) The construction of a meter and regulation station on the present Wisconsin lateral line at or near the Illinois-Wisconsin state line.

(h) The construction of telephone circuit approximately 55 miles in length to connect the present telephone system with the proposed Hugoton compressor station.

The application in Docket G-231 is made contingent upon the granting by the Commission of a certificate of public convenience and necessity in Docket No. G-651.

The application states that the present capacity of the system, approximately 268,000 M. C. F. per day, as enlarged by the construction proposed by Applicants' application in Docket No. G-651 to a total of 349,000 M. C. F. per day, will be additionally enlarged by the construction proposed in Docket No. G-231, the instant application, by 70,000 M. C. F. per day to a total of 428,000 M. C. F. per day. The estimated maximum daily demand at the outlet of the Wisconsin lateral line, to be served by the facilities proposed to be constructed, is 78,049 M. C. F. of gas per day and the estimated minimum daily demand is 23,691 M. C. F. per day.

Natural proposes to furnish natural gas at the terminal of its Wisconsin lateral line to serve the following communities and areas adjacent thereto:

## AUTHORITY TO FIX COMMUNITY DOLLARS-AND-CENTS CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders of the President, it is ordered that General Order No. 65 be redesignated Revised General Order No. 65, and revised to read as follows:

1. *Authority to fix dollars-and-cents ceiling prices.* (a) Any Regional Administrator of the Office of Price Administration or any District Director who may be authorized by the appropriate Regional Administrator may, by order, fix dollars-and-cents ceiling prices for sales and deliveries of lumber products out of distribution yard stock by any lumber distribution yard located in any area or locality within his jurisdiction, for which maximum prices are presently established under 2d Revised Maximum Price Regulation 215.

(b) Any order issued or action taken by a Regional Administrator or duly authorized District Director in accordance with this order shall have the same force and effect as if issued or taken by the Administrator. The dollars-and-cents prices established by order of a Regional Administrator or District Director shall be generally in line with the levels of prices in effect under 2d Revised Maximum Price Regulation 215.

(c) A Regional Administrator or District Director may include in any order issued hereunder provisions for posting price lists, for keeping of records and for making reports.

(d) Any Regional Administrator of the Office of Price Administration or any District Director who may be authorized by the appropriate Regional Administrator is authorized to modify or revoke at any time any order he issues pursuant to this section. Within 30 days from the date of the issuance of any regulation, order, or amendment of a regulation which results in a significant change in the prices established under 2d Revised Maximum Price Regulation 215, the Regional Administrator or duly authorized District Director shall amend or modify any order he issues pursuant to this section to the extent necessary to provide that the prices established by such order shall continue to conform to the provisions of paragraph (b) of this section. In the absence of any action by the Re-

gional Administrator or duly authorized District Director within 30 days of a change in 2d Revised Maximum Price Regulation 215, it shall be assumed that such change is not significant and the provisions of the particular area order remain in full force and effect.

2. *Applicability of 2d Revised Maximum Price Regulation 215.* (a) The maximum prices for any sale of lumber as established under 2d Revised Maximum Price Regulation 215 shall continue in full force and effect except on sales of lumber for which dollars-and-cents maximum prices may be established by order of a Regional Administrator or duly authorized District Director.

(b) Except as expressly modified by any order of a Regional Administrator or duly authorized District Director in line with the terms of this order, all provisions of 2d Revised Maximum Price Regulation 215 shall continue to apply to all sales covered by such order.

3. *Enforcement.* On and after the effective date of any order issued hereunder, any person subject to such an order who sells or offers to sell lumber out of distribution yard stock at a price higher than the ceiling price fixed by such order or who otherwise violates any provisions of such order shall be subject to the criminal penalties, suits for treble damages, license suspension proceedings and any other enforcement actions provided for by the Emergency Price Control Act of 1942, as amended. Any person subject to such an order who, in the course of trade or business, buys at a price higher than the ceiling prices fixed by such order is also subject to the criminal penalties and civil enforcement actions provided for by that act.

#### SPECIFIED MECHANICAL BUILDING EQUIPMENT

##### ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, Order No. 48 under section 22 of Maximum Price Regulation No. 591 is amended in the following respects:

1. A new section 2.3 is added to read as follows:

Sec. 2.3. *Enameled cast iron plumbing fixture ware*—(a) *Manufacturers increase for items having an October 1, 1941 price.* The maximum price for sales by any manufacturer of enameled cast iron plumbing fixture ware shall be his price for the ware exclusive of all fittings and trimmings to each class of purchaser in effect on October 1, 1941 increased by 8 percent.

(b) *Manufacturers increase for items not having an October 1, 1941 price.* A manufacturer may not increase his properly established maximum price for any

item of enameled cast iron plumbing fixture ware exclusive of all fittings and trimmings for which he does not have an October 1, 1941 price without specific authorization from this Office.

A manufacturer desiring to modify his presently established maximum price for any item of enameled cast iron plumbing fixture ware exclusive of all fittings and trimmings for which he does not have an October 1, 1941 price shall file an application for such modification of his maximum price to reflect the increase obtained by other manufacturers for similar articles under (a) above setting forth the following:

(1) Full description of item. Cuts or detailed sketches should be supplied.

(2) Established maximum price for item and the section and regulation under which maximum price was established.

(3) If possible, the name of competitors marketing a similar item for which they had an October 1, 1941 price.

Such applications shall be filed with the Building Materials Price Branch, Office of Price Administration, Washington 25, D. C.

(c) *Optional use of this section.* Since the provisions of this section are not intended to reduce properly established maximum prices, any manufacturer whose price in effect to each class of purchaser on October 1, 1941, plus the increase provided for under (a) is less than his maximum price as established under Maximum Price Regulation No. 591 may continue to use as his maximum price, the maximum price properly established under that regulation.

(d) *Notification by manufacturers.* Any manufacturer who applies the increase permitted under (a) shall notify each purchaser in writing at or before the issuance of the first invoice after January 2, 1946, of any change in his selling price for each item of enameled cast iron plumbing fixture ware exclusive of fittings and trimmings over his maximum price to that class of purchaser in effect on January 1, 1946.

(e) *Resellers maximum prices.* The maximum price for sale by any reseller of enameled cast iron plumbing fixture ware exclusive of fittings and trimmings shall be his maximum price to each class of purchaser as determined under the General Maximum Price Regulation or other appropriate regulation.

(f) *Profit factor for use in connection with adjustment under section 1.2 (a) and (b).* Any manufacturer of enameled cast iron plumbing fixture ware filing an application for individual adjustment in accordance with section 1.2 (a) or (b) may use in connection with such an application the industry profit factor of 5.9 percent.

This Amendment No. 2 shall become effective January 2, 1946.

NOTE: All reporting requirements of this Amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 27th day of December 1945.

Administrator.
